STUDENT ARCHITECTURE SCHOLARSHIPS

BOISE, October 1, 2011 — The American Institute of Architects (AIA), in collaboration with Construction Specification Institute (CSI), is pleased to announce that Patty Norberg, President of AIA Idaho Central Section, presented a check for \$1,000 for student scholarships to Sherry McKibben, Director of the Idaho Urban Research and Design Center, University of Idaho Boise, at a recent AIA Luncheon.

The proceeds for the scholarship came from donations and sponsors of the 2011 AIA/CSI Golf Tournament. Norberg said, “We hit our goals and were able to provide the scholarship funds. We look forward to our next tournament planned for May of 2012 where we will continue our efforts for additional donations. We will also be applying to National AIA for matching funds for scholarship funds to assist Idaho students studying architecture.”

Patty Norberg, AIA, currently serves as President of AIA Idaho Central Section. The American Institute of Architects (AIA) is a professional organization that helps architects serve the public's needs while building awareness of the role architects and architecture play in American society.

Construction Specification Institute (CSI) is an international technical organization that works to organize, standardize and communicate construction information. CSI is unique in that it facilitates an exchange of information between all participants in the construction process—a benefit not found in one discipline organization. To contact the local Idaho CSI Chapter, call Matt Stenshoel at 908.3085, mstenshoel@gmail.com

The Idaho Urban Research and Design Center (IURDC) is an educational and outreach program of the University of Idaho’s Department of Architecture and Interior Design and the College of Art and Architecture. Located at the Idaho Water Center in Boise, Idaho, the IURDC offers courses leading toward a Master of Architecture and allows graduate architecture students to design in an urban environment. Students at the IURDC have the opportunity to help shape Boise’s cultural and metropolitan identity.
