When AIA Contract Documents are in force, everyone's interests are in balance.

AIA Contract Documents were created from a consensus of contractors, lawyers, developers, and architects expressly to balance the interests of all parties. They cover all phases of a project from beginning to end. Courts have recognized their legal legitimacy time after time. Which is why no other standard contract document system is

as effective at keeping projects running smoothly and finishing successfully. They're available in paper or electronic form with flexible pricing. Plus, our new software release features full Microsoft® Word functionality and improved navigational aids, as well as formatting and collaboration options.

G Forms can now be edited in Microsoft® Word.

AIA Contract Documents

Order now at www.aia.org.

Natural gas: The Jack of All Trades

When your project calls for space heat, water heat, process heat, backup power, cooking, pumping, or decorative lighting, include natural gas in your planning. The quality, the low operating costs, and the environmental advantages will make natural gas your most versatile and valuable partner.
